

Front

Inserting the Earbuds:

The earbuds should fit snug into the ear canal.

Note: If you are getting little bass, lightly push the earbud deeper into the ear canal or try a different tip. Make sure not to push beyond the ear canal opening.

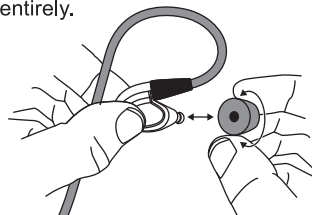

Removing the Earbuds:

Gently grab the earbud and twist. Make sure you do not pull on the cable when removing.

Changing Tips:

Remove the tip by twisting then gently pulling. Slide on a new tip making sure to cover the nozzle entirely.

5-Year Warranty
